CALMING COMFORT

FOR EVERY EQUINE CHALLENGE

PREVENTATIVE. THERAPEUTIC. REGENERATIVE.

Reign Ease, featuring Gladiator Equine's patented SemiCera® technology, reduces stress response in horses. Its versatility extends to various activities, including transport, training, competition, stress recovery, and medical emergencies, making it an indispensable tool for horse owners. Tailored for horses' unique anatomy, this device uses ambient heat on the poll, activating far-infrared ceramics that stimulate the cerebellum. This allows for more supple neck muscles, important for balance and movement, enhancing compliance and responsiveness.

REIGN EASE[®] PRO REIGN EASE[®] PRO-C

THE ULTIMATE SOLUTION

FOR EQUINE CALMNESS AND WELL-BEING IN TRANSPORT,
TRAINING, COMPETITION, AND BEYOND.

PREVENTATIVE CARE

Reign Ease excels in preventing stress and anxiety in diverse situations, from transport to competition, thus avoiding stress-related injuries and behavioral issues. It enhances the horse's response mechanism, ensuring a focused, cooperative horse, crucial for effective training for both horse and handler.

THERAPEUTIC COMFORT

It improves suppleness in the head-to-neck area, enhancing stride and extension. This therapeutic relaxation heightens the horse's receptivity to cues, vital for training and performance. In other high-stress scenarios, Reign Ease's therapeutic effects calm horses, aiding significantly in their overall well-being.

REGENERATIVE POWER

By fostering relaxation and reducing stress responses, Reign Ease contributes to the horse's mental and physical regeneration. Reign Ease fosters a calm, stable environment, conducive to health and stress recovery and medical emergencies.

VERSATILE AND EFFECTIVE

Reign Ease is a non-invasive, medication-free solution, offering comprehensive benefits throughout the horse's journey, not just in isolated applications.

ADVANCED CARE, SIMPLIFIED.

Reign Ease is designed for continuous wear and is available in two models. The Reign Ease Pro and the Reign Ease Pro-C, (cloth covered) which allows for Velcro attachment to any size bridle or halter.

INSTRUCTIONS:

1. Clean device with water before each use
2. Place device on poll with single bump in front of crown piece
3. The crown piece should fully fill in space between front ceramic emitters and be flush with rear emitters
4. Place device 20-60 minutes prior to riding

PRODUCT SPECIFICATIONS:

Model #: **5010 Pro**

Size: 5 7/8" x 4 7/8"
Fits 1 3/4" crown

Model #: **5011 Pro-C**

Size: 5 7/8" x 4 7/8"
Fits 1 3/4" crown

Materials:

Tear Resistant Textiles
Rare Earth Minerals
Silicone Rubber

*can be used with 1" crown with bonnet or attachment
